

iTRACK

Cloud GPS Fleet Tracking

iTRACK is a powerful, cloud based GPS Fleet Tracking solution that gives valuable insight into vehicle location and activity in real time.

Whether managing a small or large fleet, iTRACK is an interactive, easy to deploy solution with GPS tracking, driver behavior monitoring, and Geo-Fence and security capabilities with an online interface providing critical insight and data for any fleet manager.

Our customers report improved efficiencies and decreased costs across the business.

iTRACK can help you:

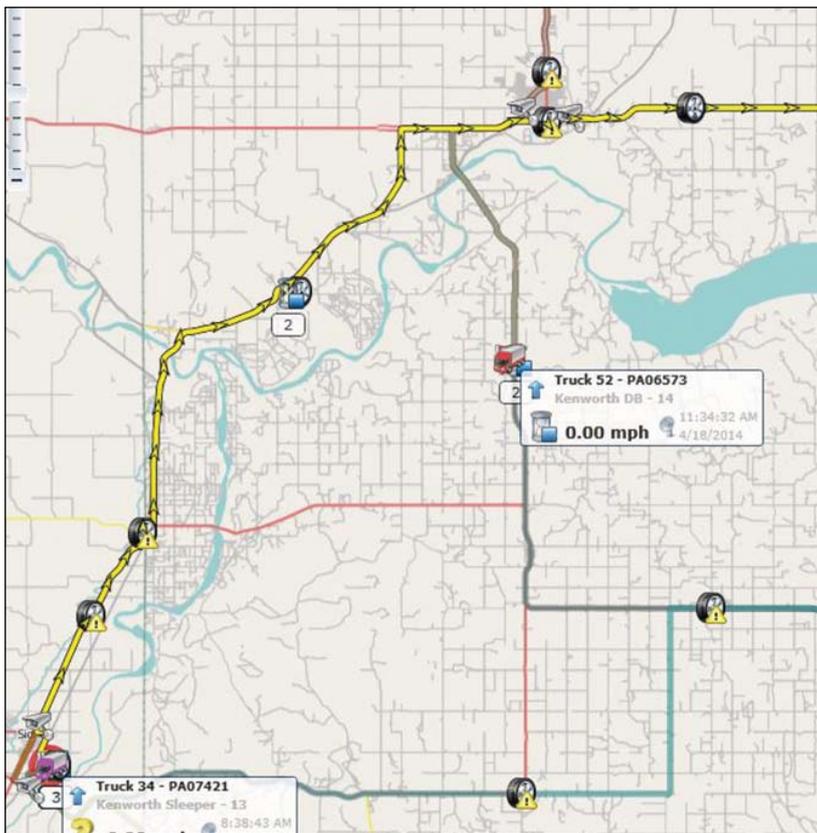

- **Lower fuel costs**
Know exactly where your vehicles travel throughout the day and improve fuel consumption by reducing unnecessary stops, creating more direct routes, decreasing idle time, and eliminating unauthorized usage.
- **Increase productivity**
Efficiency gains allow for more time working and less time driving, meaning more deliveries and jobs completed in a day.
- **Reduce overtime costs**
Automated reporting enables accurate time tracking.
- **Improve customer service**
Provide your customers with accurate arrival and departure times and enable a more responsive operation to meet last minute customer needs.
- **Decrease traffic violations**
Monitor driver behavior and receive alerts on speeding, harsh braking, and more.
- **Enhance safety and security**
Set geographic zones and authorized drivers for specific vehicles and receive alerts on unauthorized usage or activity.

Driver behavior reporting details average speed, idle time, harsh braking, ignition on/off, average distance travelled and more.

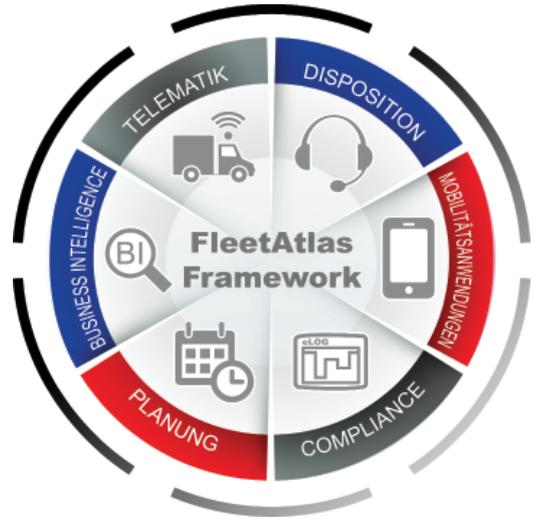

Performance Score	Driver	Reg	MPG	Journey Time	Journey Distance (m)	Fuel Used (L)	Fuel Cost (£)	Idle	Harsh Braking (30)	Harsh Accel (20)
