

# TS ActiveTab

## Rugged Tablet for Enterprise Workforces

Lightweight and compact, the TS ActiveTab enables productivity for in-office and on-premises mobile workers. The included C-pen features a firm, narrow tip for note-taking and capturing signatures with a pen-like feel. NFC is included for data exchange between devices, while Samsung KNOX provides enterprise-grade security.

Able to withstand drops from up to 4 feet, the TS ActiveTab features daylight readability, an increased operating temperature range, a POGO pin for fast and easy recharging, and a user-replaceable battery for up to 10 hours of productivity.

### TS ActiveTab can help you:

#### ■ Connect wirelessly

The TS ActiveTab supports WWAN, WLAN, 4G-LTE, and WLAN wireless networks, so when it comes to performing services in the field, you can cut the cord.

#### ■ Scan barcodes and take pictures onsite

With a 3 MP rear camera with Flash and Barcode Scanner capability and a 1.3 MP front camera, you can use your iSafe Tablet to capture images in the field and scan barcodes to verify proper inventory.

#### ■ Communicate with other peripherals with NFC

NFC (Near Field Communication) enables two separate devices (e.g. smartphone and receiver) to communicate and share data with each other in close range (4 cm / 2").

#### ■ Take notes and capture signatures

The included capacitive pen features a firm, narrow tip for note-taking and capturing signatures with a pen-like feel.

#### ■ Maintain a robust technical platform

The Android 5.1.1 Lollipop operating system, which is run on a quad core 1.2 GHz processor provides the processing speed you need in the field.

#### ■ Connect with field peripherals and accessories

Expand range of use by connecting a variety of accessories and peripherals to the TS Active Tab. Optional tools include a micro SD-Card, a hand strap with accessory bag, and non-IS and EX-headsets.

## TECHNICAL SPECIFICATIONS

	<b>TS ACTIVETAB</b>
<b>OPERATING SYSTEM</b>	
	ANDROID LOLLIPOP 5.1.1
<b>PROCESSOR</b>	
	QUAD CORE 1.2 GHZ PROCESSOR
<b>MEMORY AND STORAGE</b>	
	RAM 1.5GB ROM 16GB WITH OPTIONAL MICROSD UP TO 64GB
<b>DIMENSIONS</b>	
	126,2MM X 213,1MM X 9,75MM
<b>DISPLAY</b>	
	8 INCH TFT DISPLAY WITH 1280 X 800 PIXELS
<b>ENVIRONMENTAL</b>	
	OPERATING TEMPERATURE -20 ... +55 °C
<b>WWAN</b>	
	4G LTE CATEGORY 4: 800 / 850 / 900 / 1800 / 2100 / 2600 UMTS (3G) / HSPA (3.5G): 850 / 900 / 1900 / 2100 GPRS / EDGE (2G): 850 / 900 / 1800 / 1900
<b>BLUETOOTH</b>	
	BLUETOOTH SMARTREADY LE 4.0
<b>WIRELESS LAN</b>	
	WIFI 802.11 A/B/G/N
<b>POWER</b>	
	11 HOURS BATTERY LIFE / 4450 MAH
<b>CAMERA</b>
